A few issues were brought to our attention at the end of the 2023 tournament season. The OAA Officers and I heavily discussed these issues at our annual board meeting back in October.

Ohio Archers holds a high standard for our shooters, parents, and spectators when it comes to sportsmanship, cheating and bullying. We as an organization will hold those accountable that act in a manner not upholding our core values.

Ohio Archers wants all individuals who witness any act of un-sportsmanship, cheating and or bullying to come forward. This can be done discretely by notifying the NFAA State Director and/or any of the Ohio Archer officers.

Josh Harlan, the NFAA State Director, will conduct a full investigation into the claim. Any violation(s) found will have an immediate decision into the matter. These decisions can be a warning, disqualification from that event or banning of further Ohio Archer events.

Josh can be reached through the below contact information. If possible, a meeting with him at the event can be arranged.

Thank you,

Barry Burnett
President
Ohio Archers
